UWC Mission and School Concept

The United World College movement makes education a force to unite people, nations and cultures for peace and a sustainable future.

UWC Robert Bosch College is a two-year pre-university college and boarding school for students from all around the world. The project was initiated and implemented by the Deutsche Stiftung UWC and Robert Bosch Stiftung on the occasion of Robert Bosch's 150th birthday. The campus was constructed on the site of a former Carthusian monastery in Freiburg. The school officially opened in September 2014 and our first generation of students graduated successfully in May 2016.

All 18 United World Colleges are based on a unique educational concept first developed by co-founder and teacher Kurt Hahn: We welcome students from a deliberately diverse range of backgrounds and experiences – a cross section of socio-economic backgrounds, cultures, races, religions and nationalities. Common to all 18 UWCs in Europe, Asia, Africa and America, students at UWC Robert Bosch College are confronted with central issues of humanity: intercultural understanding, peace and sustainable development.

UWC Robert Bosch College places a particular emphasis on environmental issues. A key question that our students explore is how technology can contribute to sustainable, ecological development and peace.

Approximately 200 students aged between 16 and 19 from around 90 different nationalities live and study together for two years. They complete the International Baccalaureate Diploma Program (IB). The language of instruction is English. Living and learning together on a daily basis, students will get to understand themselves in a global context. Community service and engagement are not only mandated for the completion of the IB program, but also play a vital role in college life.

UWC RBC ACADEMIC PROFILE

GLOBAL AFFAIRS

Robert Bosch College has a weekly lecture/discussion series on global and current issues led by guest speakers and/or UWC students. Subjects in the past included: The Aids Epidemic in Southern Africa, Agroforestry, Undocumented Cross-Mediterranean Migration, Changing Political Landscapes and many more. During the past school year, the events had to be done virtually, as the campus was largely closed to visitors as a result of the COVID-19 pandemic.

CREATIVITY ACTION SERVICE (CAS)

While generally a core requirement of the IB diploma, CAS activities are viewed as central to the success of UWC RBC's community. A student's participation, engagement and initiative in activities is considered equally as valuable as time put into academics. UWC students therefore far exceed the minimum IB requirement of 150 hours of extracurricular activities. Activities include working with multicultural groups in local kindergartens, assisting elderly and people with disabilities, working in the colleges own organic garden alongside local volunteers, a student orchestra, Baking, Model UN, Football/Soccer, Basketball, Outdoor leadership, Film Making, Archery and dancing.

PROJECT WEEK

Once per term, UWC RBC supports students in designing, planning and carrying out off campus projects for six days. Students are challenged to come up with meaningful projects. Project week is a way of promoting the ideals and mission of the UWC movement hands-on. Projects allow students to exercise their leadership skills in the areas of humanitarian service, creative expression and physical challenge. All projects contain clear objectives, an element of challenge, clear learning outcomes and at least one element related to CAS. Past projects included a project in Brussels cooking food for homeless people, an environmental project centered on building a floating raft out of PET bottles, a biking trip across the Alps and a trip to Berlin focused on exploring Jewish history in Germany. With COVID restrictions lifted in much of Europe, students are once again set to explore the wider region for their project weeks.

SPORTS AND OUTDOOR PROGRAMS

Our regular sports and outdoor program includes a Basketball Club, a Soccer Club, multiple Cycling teams (Mountain biking and road biking) and an Edible Campus Group. Moreover, climbing and hiking activities are offered throughout the year and during special events. There are usually two big outdoor weekends per year. All students are invited to participate in snow day early in the second term.

GAP YEARS

UWC Robert Bosch College supports students interested in pursuing GAP year options. Our graduates have embarked on a variety of GAP year programs, such as Semester at Sea, Global Citizen Year, volunteer in Jordan, work as an au-pair in Germany, act as assistants at other UWCs and the German government sponsored "kulturweit" service in Peru, Togo and Georgia. Students have been awarded scholarships to enable them to participate in these projects and in 2017 one of our students was selected as the recipient of the Nema Conrad scholarship awarded by the Winterline Global Skills Program.

UWC RBC was again able to stay open as a boarding school and teach fully in-person for almost the entire year, despite COVID restrictions. All graduating students sat for the IB Diploma Exams on campus. UWC RBC graduate and St. Olaf student becomes a best-selling author with his memoir.

UWC RBC ACADEMIC PROFILE

IB DIPLOMA COURSES AND CURRICULUM

Unless otherwise noted, courses are offered at either higher or standard level. Students generally take 6 subjects (3 HL, 3 SL), study Theory of Knowledge, submit an Extended Essay and participate in CAS. If German is not among the 6 subjects chosen, students can take German as a conversation class.

1	Language A: Language and Literature (taught) Language A: Literature as school supported self-taught (students also take a world literature course to complement self-study)	English, French, German, Spanish, Arabic various
2	Language B or ab initio	English, French, German
3	Individuals and Societies	Economics, Environmental Systems and Societies (SL), Geography, History, Social and Cultural Anthropology, Global Politics
4	Experimental Sciences	Biology, Chemistry, Environmental Systems and Societies (SL), Physics
5	Mathematics	Mathematics Applications and Interpretations; Mathematics: Analysis and Approaches
6	The Arts	Theatre; Visual Arts

IB DIPLOMA RESULTS 2021

IB schools had the choice of having IB exams or using internal assessments for the May 2022 exams. UWC RBC opted to do the exams and all graduating students sat for these in May 2022. Our class of 2022 achieved excellent results again, despite challenging circumstances related to the corona pandemic.

The average score of those awarded a diploma was **35.4**

40-45	35-39	30-34	24-29	< 24
27.4%	33.3%	25.0%	13.1%	1.2%

STANDARD TEST RESULTS

In recent years, and particularly this year, our students have had less access to SAT/SAT Subject and ACT tests because of fewer test dates abroad, fewer sites offering the test, score cancellations, technology difficulties, and higher fees. We ask that all higher education institutions take this into account when evaluating our students' applications. *Below are the testing results for our students for the 5 SAT tests from October 2021 to August 2022*

SAT Reading/Writing	SAT Math	SAT Composite
620	650	1270

CURRICULUM AND RESULTS NOTES AND HIGHLIGHTS

*All students need to take 2 Languages, 1 Science, 1 Math and 1 Social Science course
To fulfill state requirements, German students have to follow a more strictly defined curriculum
Typically, students at UWCs score higher on the IB diploma than the international average*
