

09th October 2023

Dear Parents and Guardians,

I am pleased to report that all students returned from their Project Week over the weekend. There was one injury resulting in the need for several stiches, when a student cycling from their Project to a train station, on a borrowed bike, got their trousers caught in the chain. The accompanying students managed the situation excellently.

Many students have families, friends, or roots in Israel and Palestine, as well as in Afghanistan (which has experienced a severe earthquake). Our thoughts are with them in most difficult times.

With best wishes,

Laurence Nodder

Rektor
